You cannot see brotherhood; neither can you hear it nor taste it. But you can feel it a hundred times a day. It is the pat on the back when things look gloomy. It is the smile of encouragement when the way seems hard. It is the helping hand when the burden becomes unbearable.

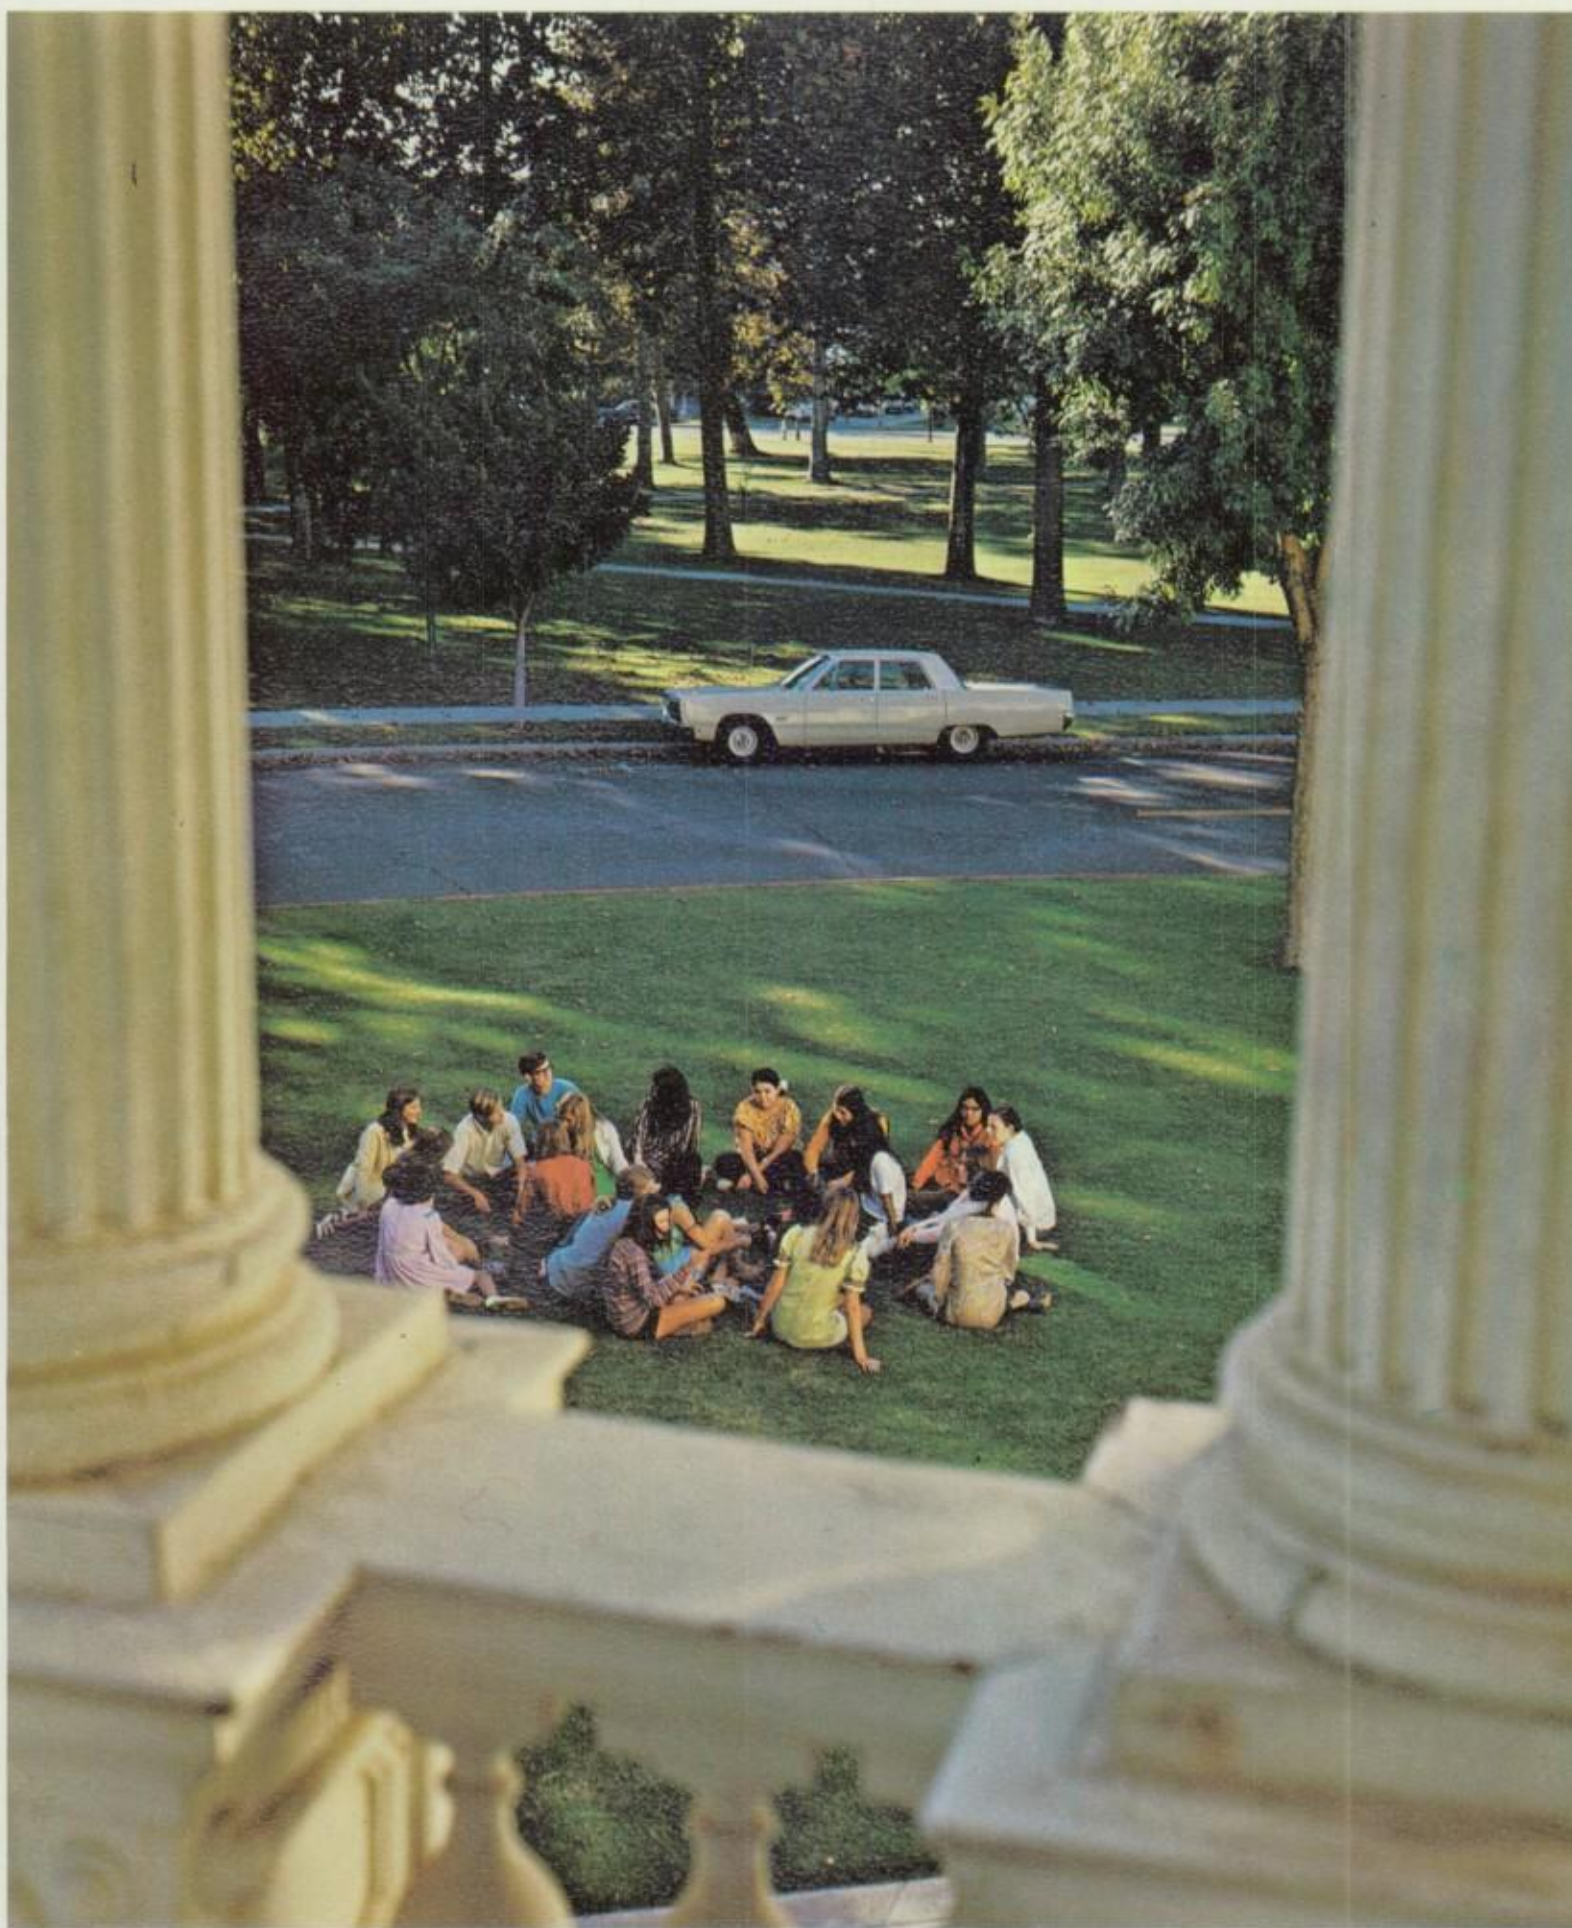

—Peter E. Terzick

DAW -
 THIS YEAR I THINK
 I HAVE GOTTEN TO
 KNOW YOU FAIRLY WELL
 I KNOW YOU'RE A PERSON EVEN
 AND NOT A COMPUTER
 IF YOU ARE SUPER SMART
 I HOPE YOU
 BE MY FRIEND
 LOVE,
 Mimi
 KKK

Even if you listen to me with open ears,
 will you really understand what I am trying to say?
 So many hear just the trailing noises of something meaningful,
 and leave the rest to fall
 shattered on the ground.

FABER, DANIEL.

YOU ARE COOL
AND A NICE GUY
EVEN IF YOU ARE
SMART. ALWAYS LOOSE
AND KEEP ON BEING WHAT EVER
YOU ARE. Andy D Evans

Love is but a song we sing,
fear's the way we die.
You can make the mountain ring,
or make the angels cry.
Though the dove is on the wing,
and you may not know why.
Come on, people, now,
Smile on your brother,
everybody get together,
try to love one another right now.

—The Youngbloods

I sought my soul,
But my soul I could not see.
I sought my God,
But my God eluded me.
I sought my brother,
And I found all three.

Dan
I really dig our
friend ship. let's not
ruin it. You made this
year really fun for me
Love
Andie

So long as we love, we serve; so long as we are loved by others, I should say that we are almost indispensable; and no man is useless while he has a friend.

—Robert Louis Stevenson

Many people. Many different people. Many different people together. Many different people together dig being together. And, you know, that's what being together is all about.

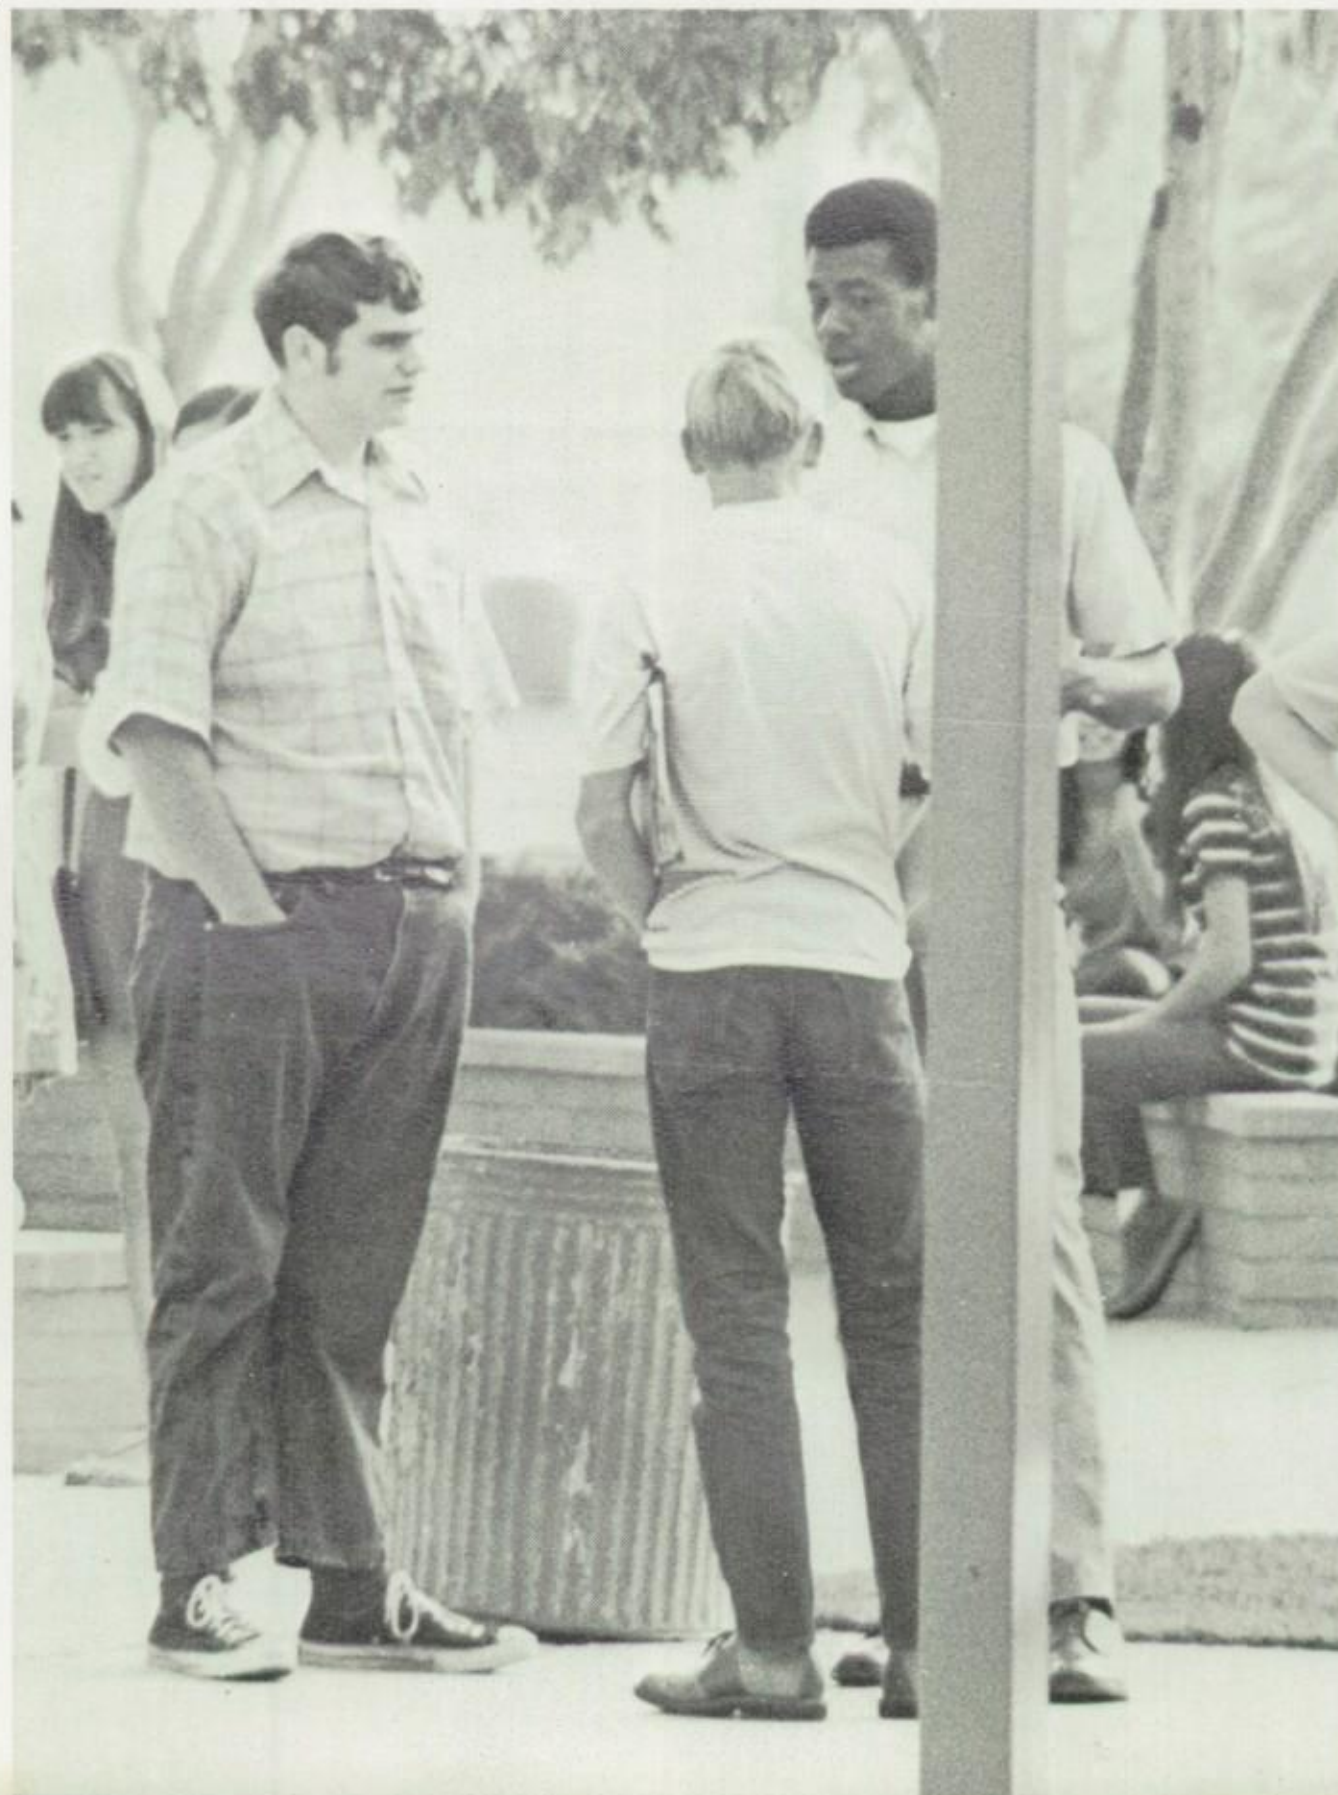

If I cannot speak the right words of unity, what do I have against your feeble, shallow mind? If I cannot paint you a masterpiece of brotherhood, what do I have against your closed eyes? But if I can replace the beat of your cold heart with the throbbing pulse of human union; if I can disguise the warmth, maybe you would open your mind, your eyes, your heart, and at least smile.

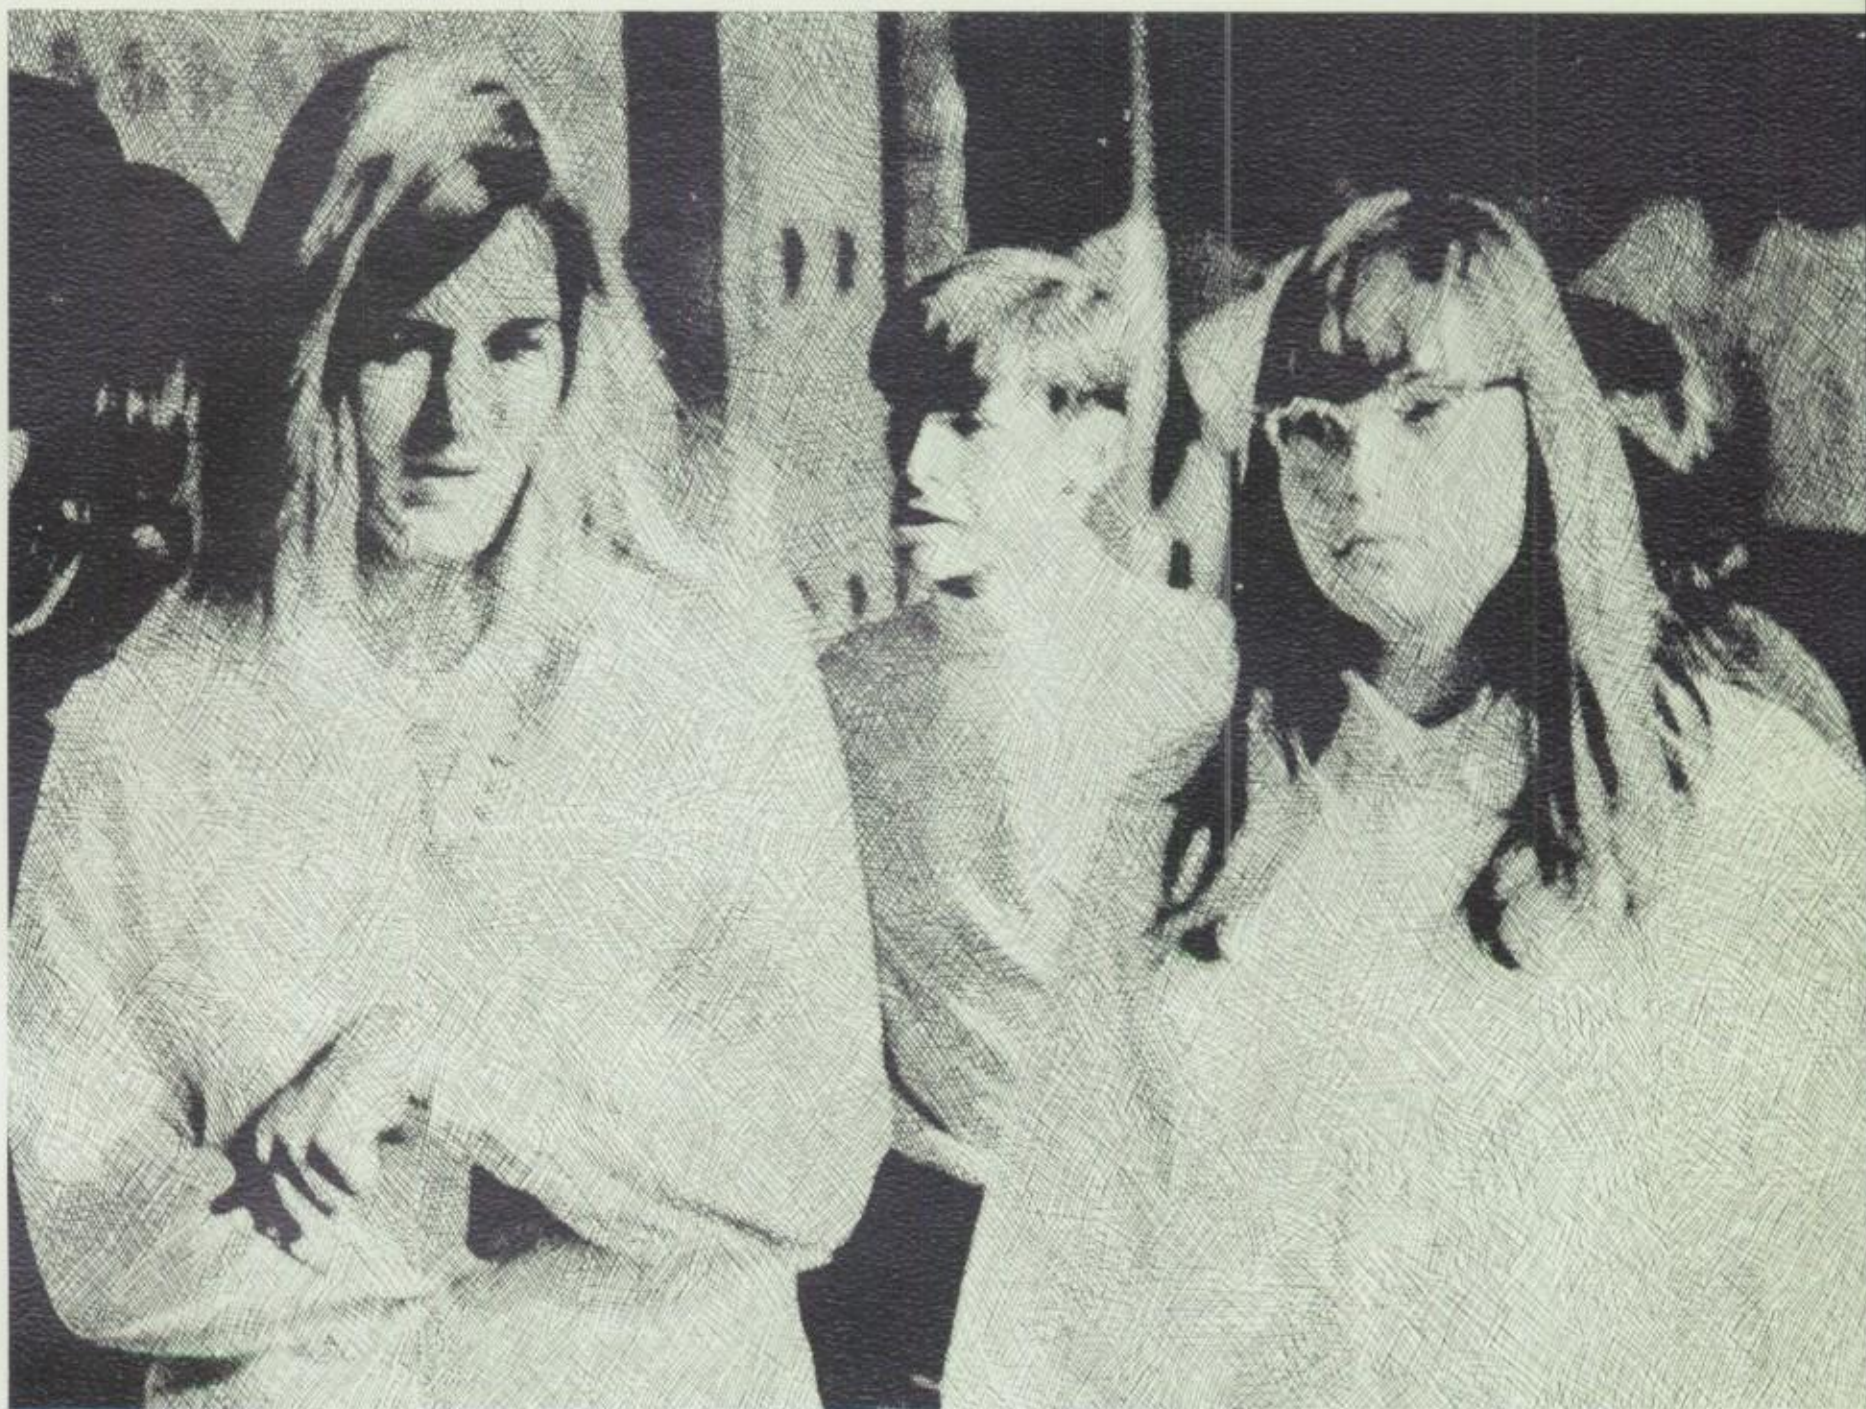

Don't you smart
 forget this year and
 mother. I'll never
 on a science test. Without
 the handicap. Slays cool and
 don't die on the boards. Its been a
 great year and you made it better
 slob. hots a luck, sword.
 Henry Clark
 ALIAS
 Tree.

Hey, brother won't you lend me your hand?
 Let me give so I may find just what I am.
 I've been waiting for the spring to bloom,
 to complete these many things which we must do.
 And it's only to let me be you,
 already we're together.

The Sons

I saw an old peasant farmer trudging along a country road with a great load of stone on his back.

"Sir," I said, "please, let me carry your burden for you!" He stopped, and his foggy eyes filled with tears.

"Everyday I walk this road, and everyday I carry the weight. People who offer to help do not realize it is not the load which makes pain, it is just walking down the road alone."

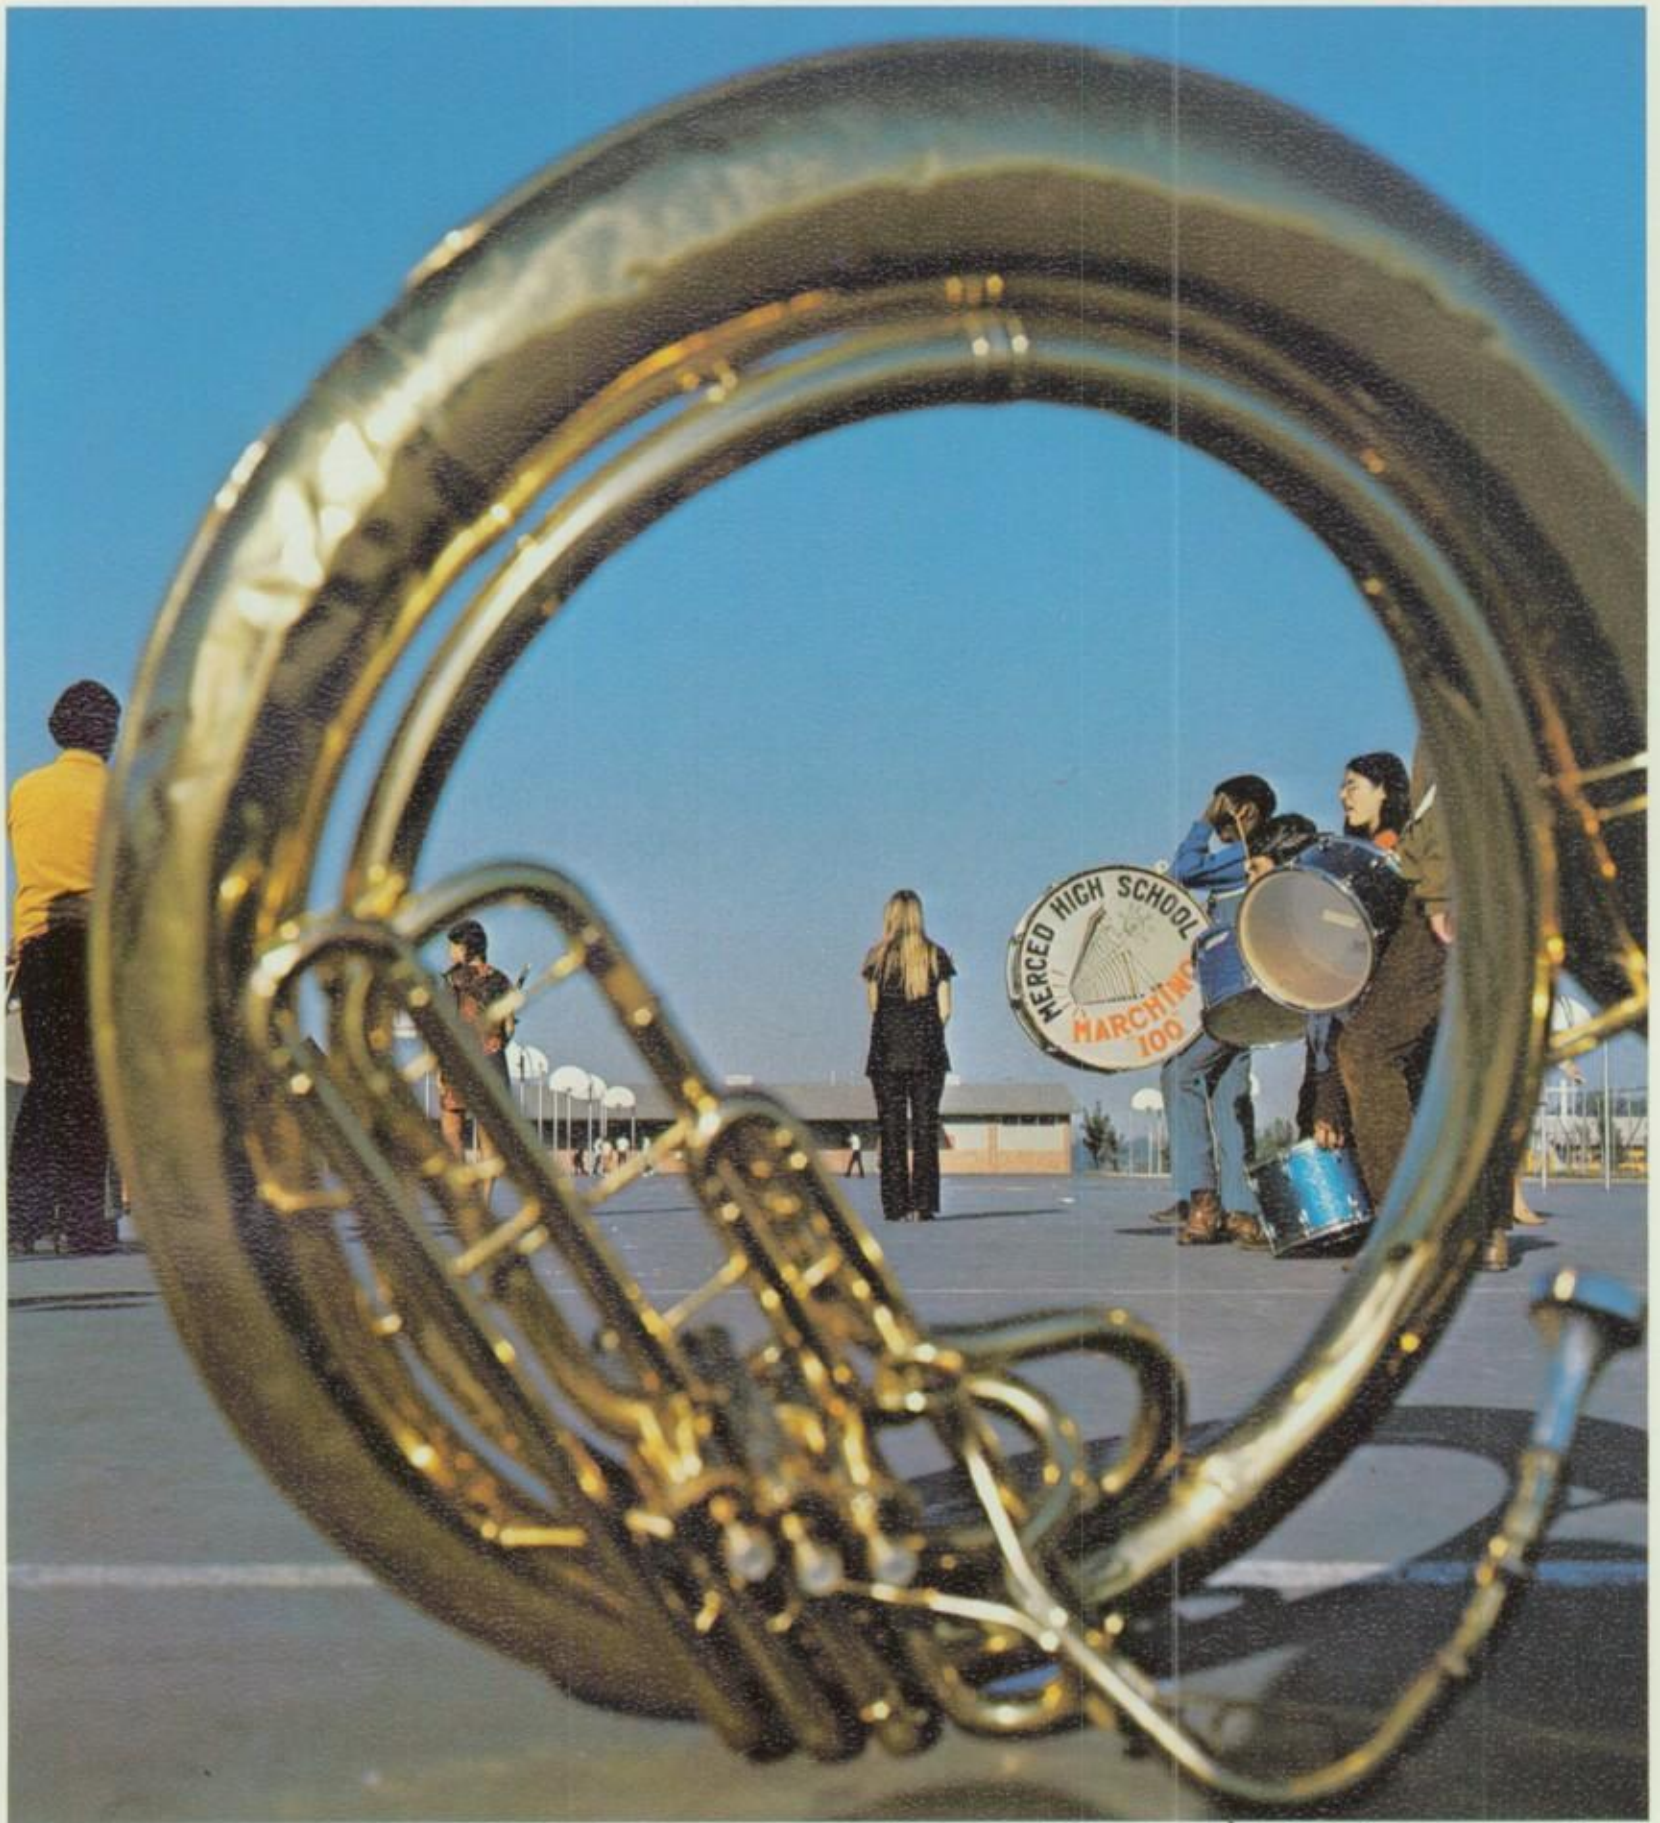

Forty different brains
ticking forty million thoughts
realizing there is no time
to stop
and think
and breathe.

Everyone's eyes stare ahead in a foggy glaze.
Where are we?
What are we doing?
Who are these people?

Dan, I wish
God I wish
we were better
friends out I can
tell hopefully we will be
later on good friends you
seem like a sweet and
for sure a good looking guy.
Keep smiling and let's become
friends! Alright!?

God Bless
Love Shelley

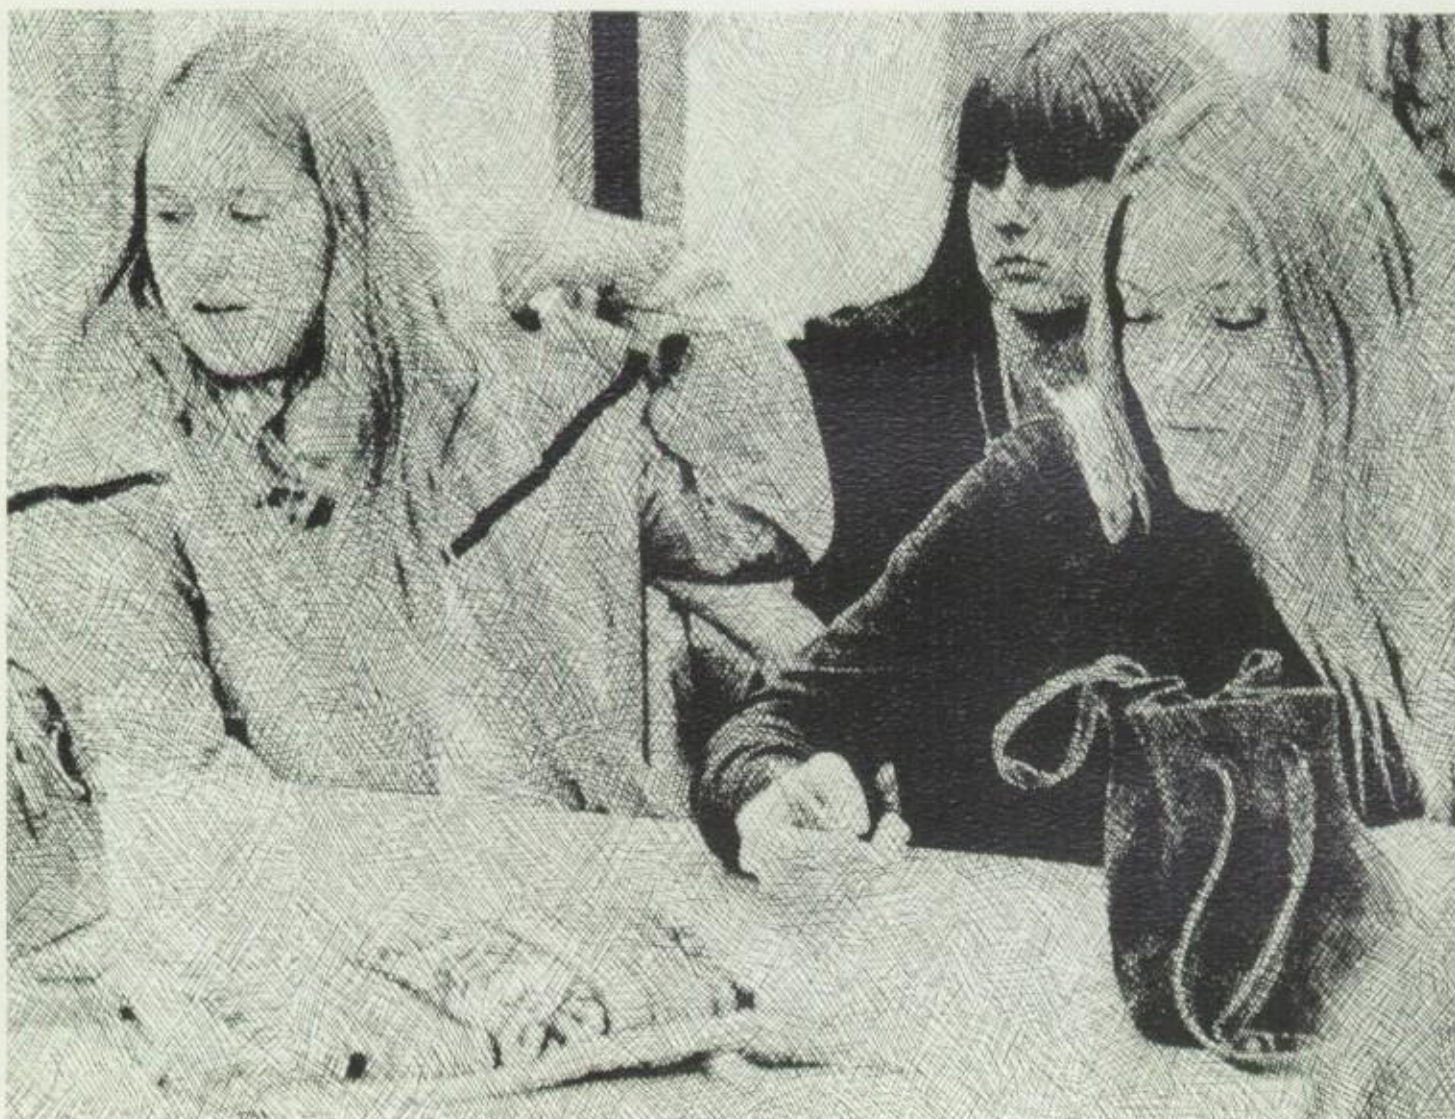

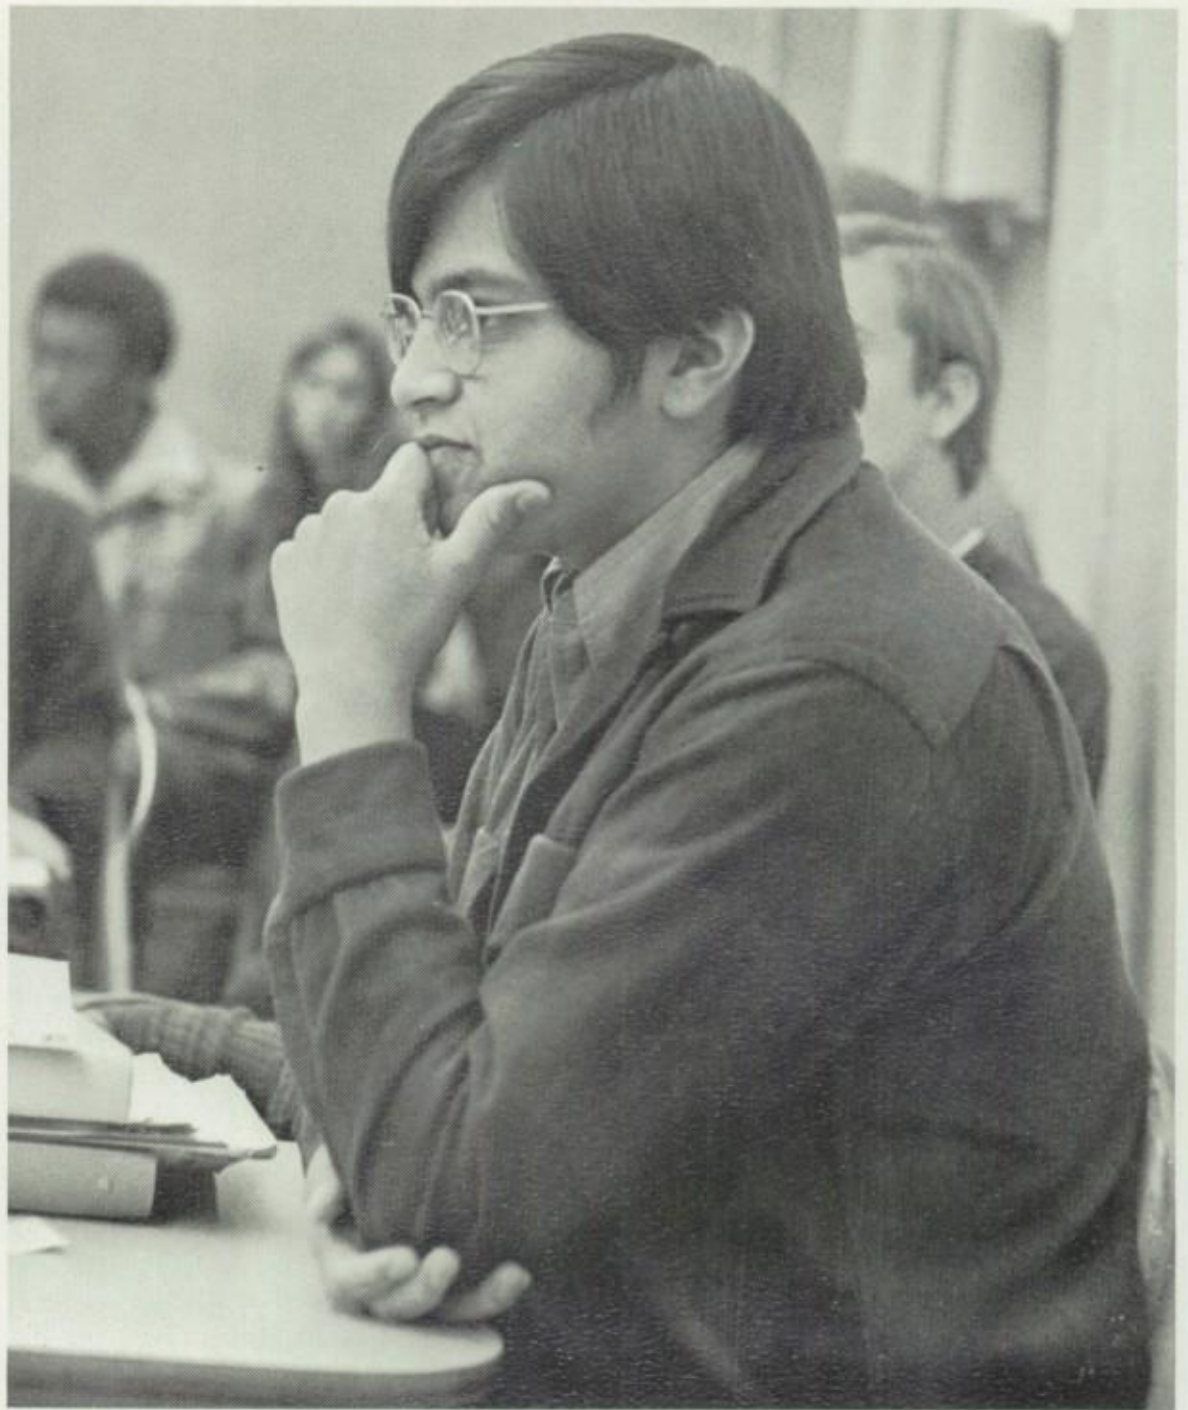

Dan,
 Well now I've had you
 in my Spanish class two
 years in a row (Jeepers!)
 I really enjoy talking to
 you because you make
 me feel so important,
 That's a great characteristic
 to have. Keep it and
 you'll have no trouble with
 friends
 Love,
 Chris

So you're supporting your school!
 And just how do you think you're gonna do it?
 You can blow your horns and beat your drums
 until you fall dead,
 And unless one person—one tiny, little person—
 understands it,
 you've failed.
 Understanding is beautiful.

Soon the sun will be upon our faces
and the light in our eyes; then we will
begin to see all men as brothers.

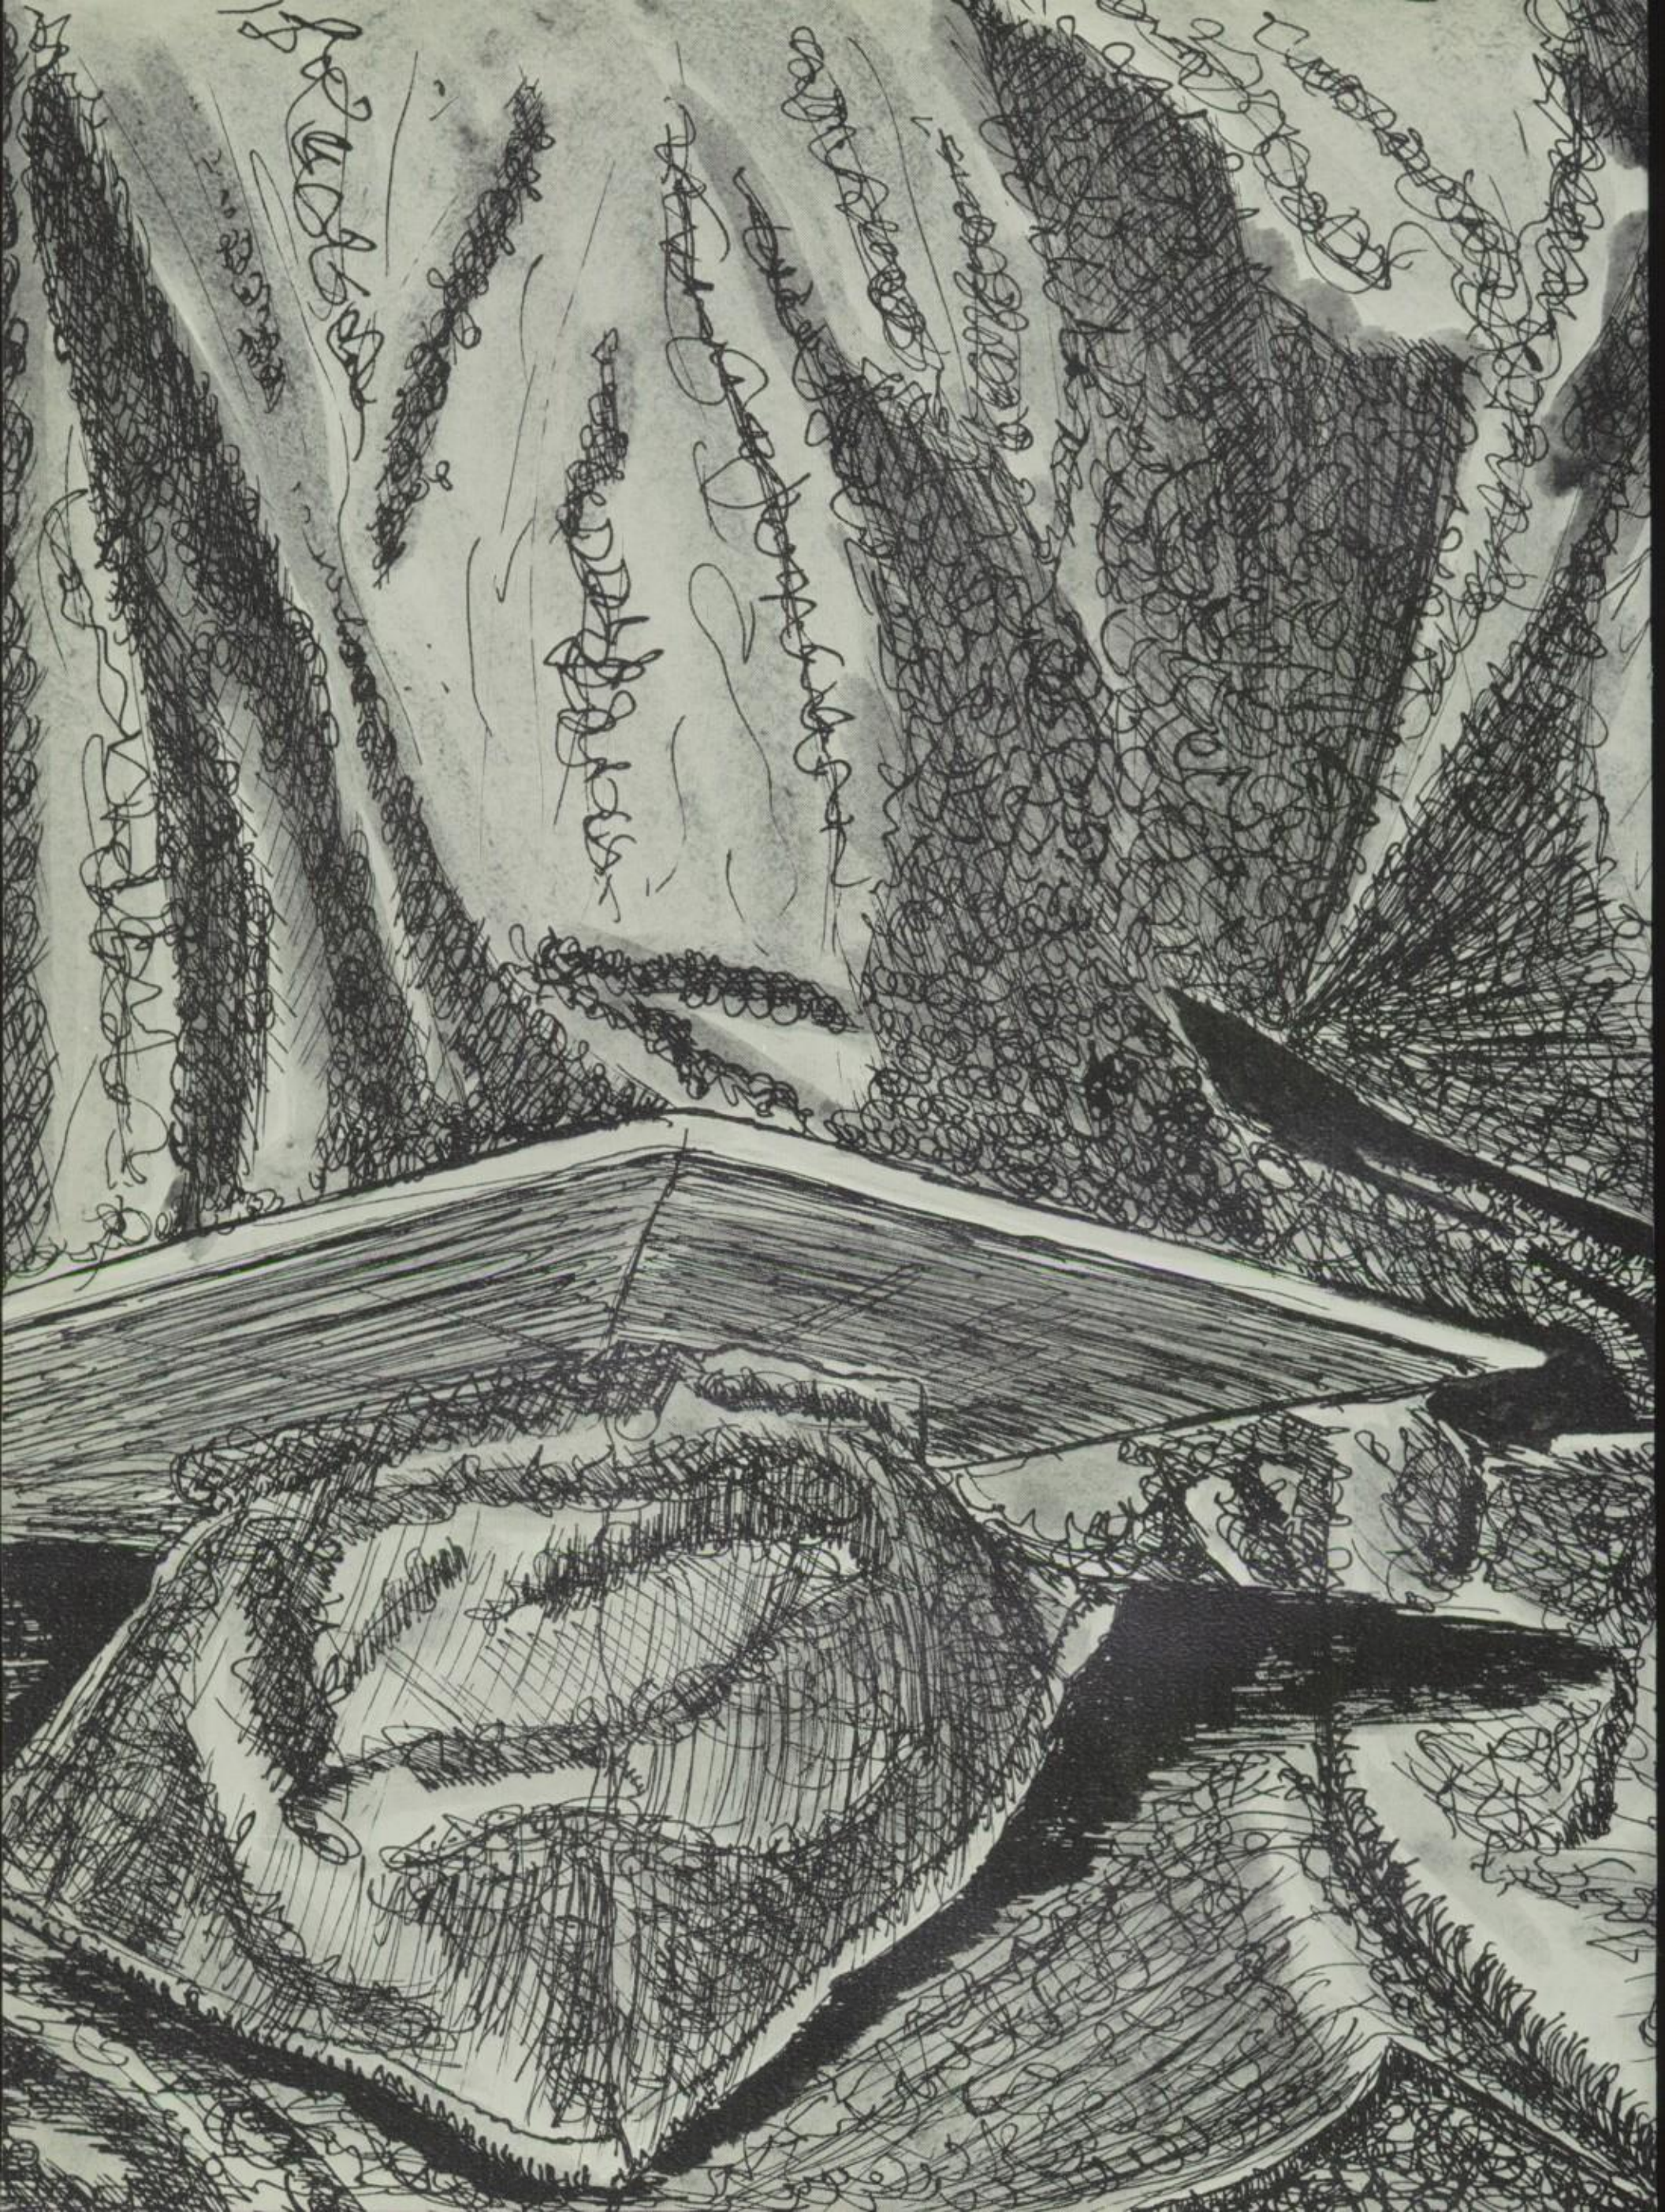

Everyone of us realizes in some point of his life, that he cannot make it alone. Whether it be a teacher, a student, a principal-no one can say, "I did it all by myself." Everyone needs someone else to get by. I need you. You need me. What do I have to do to make you believe this?

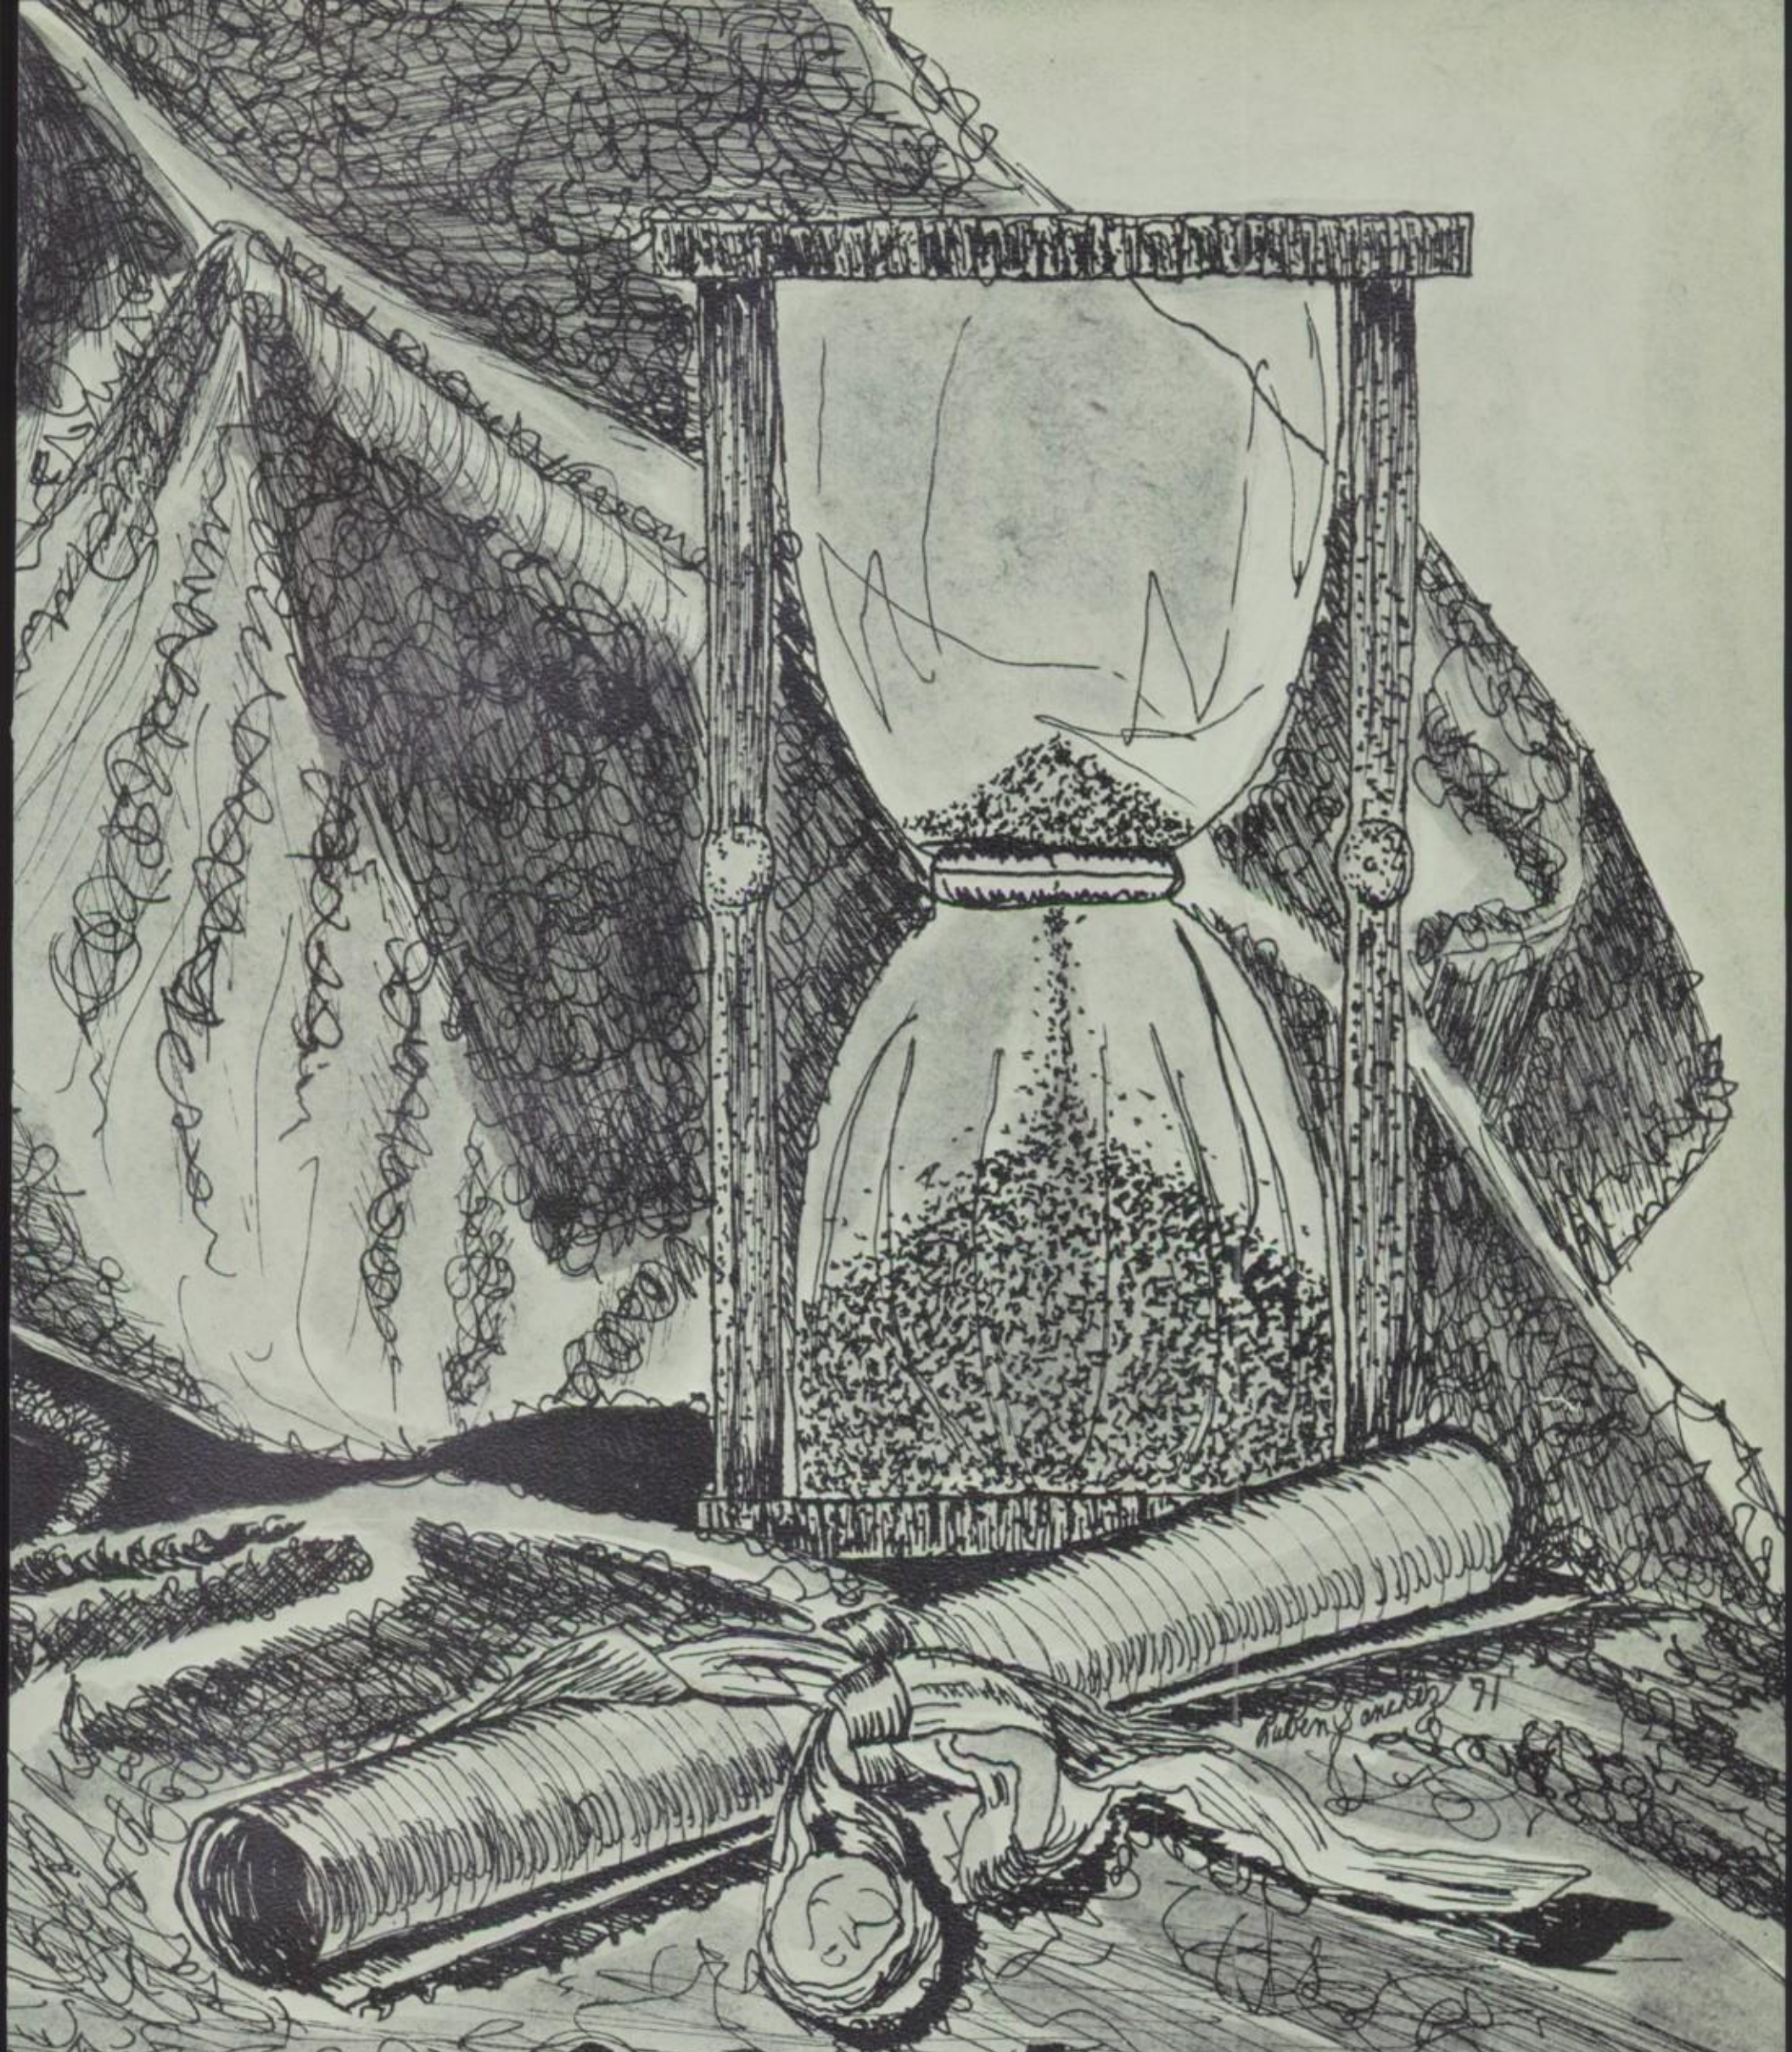

When she smiles one of her very frequent smiles, one comes to understand why she is so well-liked and so tremendously appreciated. Journeys to Sacramento with the choir, jaunts to Ensenada and Tijuana with Spanish classes at Easter, previously singing our national anthem at football games, and last but not least, a very popular member of the "Barboza Brass." Teaching both Spanish and French at East Campus, she always has the students' best interest at heart. Because of her abundance of enthusiasm pouring forth around the students at Merced High, she is a faithful supporter of nearly all activities. Interspersed among all this school activity she raises a delightful family. Her name is Aurora Barboza and it is to her that we dedicate this yearbook.

70 Don - It's been great having you
in the next grave over in cemetery.
You're a pretty kid but I never
thought you knew a damn thing
about poetry - you do know a little.
I liked the line about 'the higher
up - the colder it gets'. You should
think of hypocrisy though - Come
over some time.

No, Judy Grinder! Bring the pizza to me first, then you can boogie with David Rowel!"

Dan,
more than anything I want ~~to~~ you know
how much you mean to me & I want to express
my feelings for you, to you, somehow. But there
are things that can't be written, or said
enough - I pray that soon though, I will be
able to ~~to~~ share you - really show
you. You've given me so much. Dan, I've really
a lot more than you realize.
I've been sharing with & helped
me put it into my heart. I just felt in
God, but even more so, people in life.
You've helped me to find truth and love
taught me that if it is not outside present
to search for it - and with me.
You've helped me to learn deep and things
and such that what is inside - to find heart
or try to in the simple things.
You understand with me - you don't give
up, & Dannew, I am so, so thankful for you.
You've put your trust & faith in me - and
helps so much - it's something to live on in
a sense - and I, Dan, have put my trust &
faith into you - it will always be there, no matter
what.

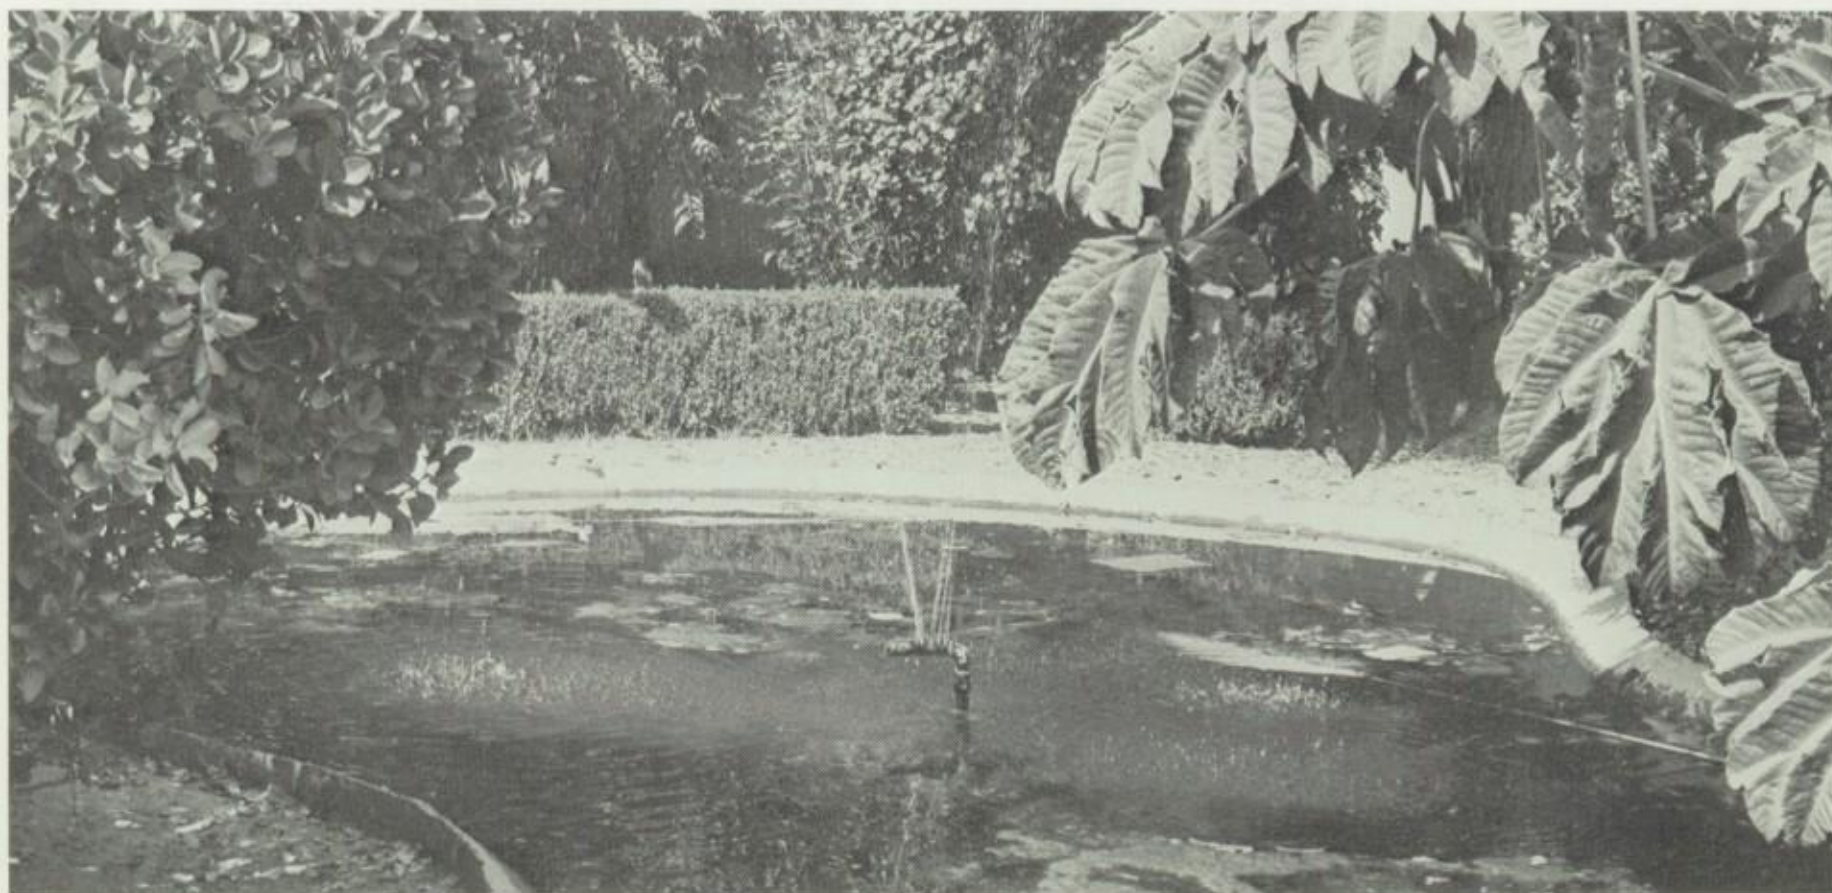

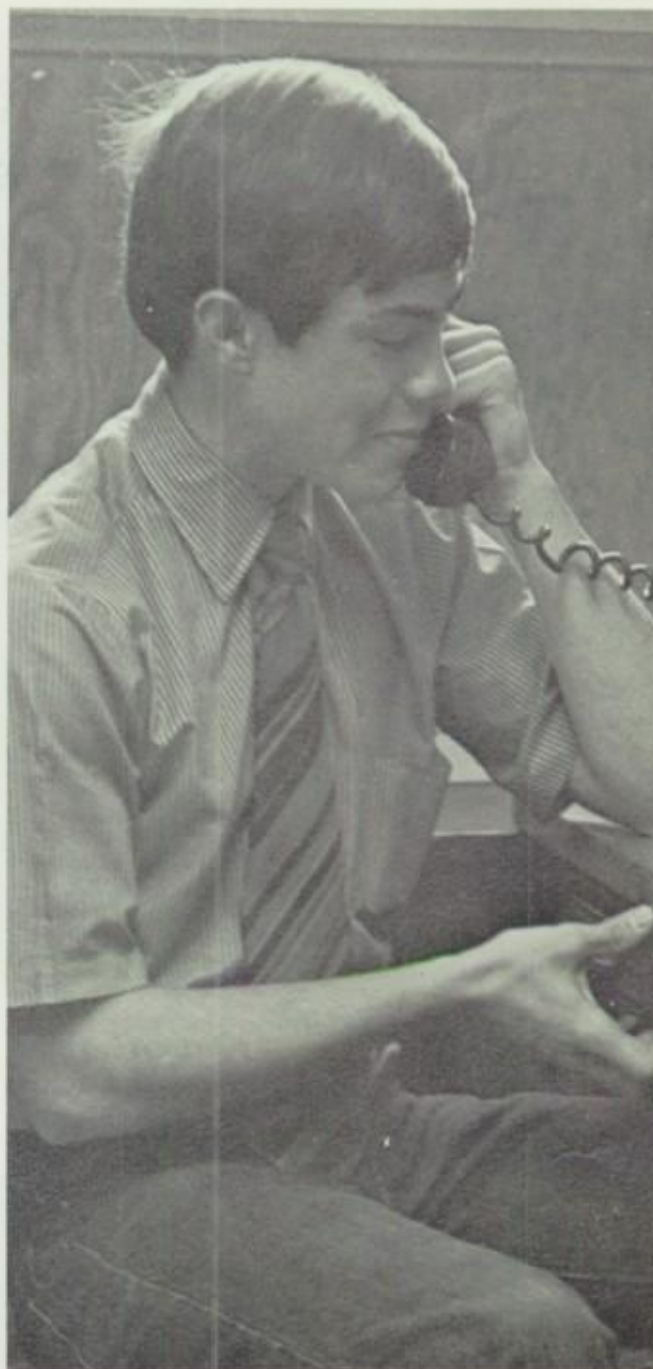

I will love you, Man, for
the things you have done
for me, forever.
I pray that your
heart is something like
mine. Always.
Love Anne

Dan,

I've had to put up with you all year in algebra. You never gave me a break. Dan I'd quietly ask you for your homework and then broadcast my name over the class just to get me in trouble by Mr. Dille. But I might add you never did get me in trouble. We had a pretty good time me telling you how I was going to get an A and you telling me how you were going to beat Herbie. That's a laugh. Next year come basketball season we are really gonna get rowdy at those games. Will put it all together. Hope to see you out for cross-country in the summer or fall so I can beat you butt into the ground. You and those easy liver workouts, you wait.

Best wishes,

Mark Gubozzi
(your favorite station)

(P.S. Stay cool, have fun, you're the class of '71. That rhymes. One more thing to say. I'm going to get an A in pre cal. next year.)

dan,

i wanted to write on the Jesus freak page, but i could not mess it up with my scribbles. it really shows how i feel, yea but you know that. where did all our talking go? i know, but

i won't say. i think we are do (check that spelling) for many more. i could write so much but what i have to write just aren't the kind of things that you write in yearbooks. sometimes i sit and watch you, and who you are with. it makes me feel bad, i don't know why. i miss our conversations & all the times we laughed together. too many things, just like lost or hurt feelings, pass by, some without second thought. i feel i have lost so many things, yet other times i feel i have gained. i know that i have gained many things from you, in such a short time.

if i can have a little more time, i'm sure to learn "lots & lots" more. you seem kind of indispensable, if that fits. i know i'm repeating, but i need to talk. i need to talk so much that it turns into an argument, and then we laugh. Laughing is another thing i need to do. i also need to cry; cry out loud and scream & shout. i think maybe you need these things. if you do, sometime maybe we could do these things together (no i'm not trying to butt in). i witnessed some pretty fascinating things with you, and i think i could use some more. i hope you finally have found someone to whom you can really talk, because you need it. (no that's not a cut), Love has been described in so many ways, but i think you know now i would describe it, it's not what you would write in a yearbook. you seem real &

Dan,

Two years ago a small boy entered my class with a well-concealed, delicate being. Somehow that small boy made an impression on me and entered my life as well as my class. He grew up before my eyes at an astonishing rate on his way to becoming a rare & precious human being. I loved him in a special way. I will miss him.

Dan,

This year has been
enlightening for me. Thank you
for your part in opening
my eyes and mind to things
I should have known before.
Your poetry was really
fine. Take care

Dan, I
the man I was under
in cemetery. Thanks for
the opportunity to meet
with you. You are one of
the coolest people I've

Dan Faber, esteemed member
of the S.D.S., it's been great
terrorizing the teachers.

To the Faberpus, (aka Diver Dan)
It's been cool knowing you for so
long. You sure could out Evans &
Duke. Keep up the good work.

Ron Knapp

To Faber, a ~~tot~~ cool guy, except in that
drawing picture you sure look like you mirrored it. Is
that a Faberpus special? Or, is it just a back-
flip. Hope to have you in my class next year.

John Woodhuff

Dan-

A guy I never
really knew till this
year, but still don't
really know. But I
really like being around
you, up skiing, in biology
or at lunch. You've got
a friendly personality &
I like your purple cords. Hea,
Kate. Anyway, good luck,
even tho you don't need it -
it comes naturally to you.

Love,

Katie Cross
